Dear .....,

At Wal-Mart and Sam's Club, we have a vision to be supplied 100% by renewable energy, to create zero waste, and to sell products that sustain our resources and environment. To support these goals, we are looking for suppliers producing organic products and/or working with innovative processes to produce a more sustainable product that helps their community and the environment.

Wal-Mart Stores, Inc. (Wal-Mart Stores and Sam's Club) would like to cordially invite you and your qualified members to our first annual Food and Agricultural Sustainability Summit on October 16, 2007. The Summit will be held in the Auditorium of Wal-Mart Stores, Inc. Corporate Office, 508 S.W. 8<sup>th</sup> Street, Bentonville, Arkansas 72716. Guests should plan to arrive early for security check in and bring a picture ID.

The objective of the Summit is to recognize and promote sustainability and diversity while building lasting relationships with Food and Agriculture suppliers that currently do not have a business relationship with Wal-Mart Stores and/ or Sam's Club.
